

UIUC HEALTH INSURANCE:

EVERYTHING YOU NEED TO KNOW

THE RUNDOWN

The University of Illinois requires all campus-based students to be covered by some form of health insurance. UIUC partners with UnitedHealthcare for the comprehensive medical plan they offer to students.

WHAT'S COVERED?

- Inpatient and outpatient care
- Emergency care
- Preventative care
- Mental health care
- Durable medical equipment
- Prescription drugs

KNOW YOUR PLAN!

Student Health Insurance charges **\$846/semester** to all Illinois students in their tuition. The enrollment/change period spans the first six weeks of each semester, where each student will either opt-in or opt-out to the plan.

DO YOUR PARENTS HAVE INSURANCE?

The Affordable Care Act allows young adults to be covered under their parent's health insurance plan until age 26. Ask your parents if you are covered on their plan. If you are, you can opt-out of the Student Health Insurance and save \$846.

CARE ABOUT YOUR COVERAGE

Health care costs have continued to rise, making affordable student plans more important than ever. Understanding coverage now builds insurance literacy for life outside of your undergrad and after you age out of your parents insurance plan.

OPT-IN
